MAYOR'S INAUGURAL ADDRESS

I would like to congratulate the members of the 1948 Council who are again with us, and to extend a welcome to the twelve new members.

The 1949 Council is somewhat unique in that it has a majority of new members—more than any previous council within *my* experience. It is unusual to see such a turnover. I hope that the vigour and enthusiasm of the new and younger members will be directed towards the progress of municipal government in this city. I heartily approve of the recruiting of new and younger blood and I am sure that it will prove of real value to the city. The Council of the City of Kingston has a long history and an outstanding tradition. It has its rules and procedures, which may seem a little cumbersome at times, but which are designed basically to expedite its business. I hope the members of the council will study these rules and procedures and thus assist in the more effective conduct of our affairs.

Every member of this council has had to fight for his seat in it and should therefore value it all the more. The things we must struggle for are the things which we value the most. I hope that this will give us all a high sense of responsibility in the conduct of the public business.

I should like to take this opportunity of putting on the record the loss of two of our past colleagues, the late Mayor Stuart Crawford and Alderman Nelles Megaffin. The loss of both of these public-spirited men in one year was indeed heavy.

I should also like to put on the record an appreciation of the work of our civic officers and employees. From time to time we have our differences but these are not too serious. We know that no effective government can be carried on without an efficient and loyal civil service. On the whole, we have loyal and efficient officers and employees and I would like to record here on behalf of the council our appreciation of their services and our desire to see the best possible working conditions.

In view of the fact that there has been some criticism of the 1947-1948 council may I point out the accomplishments of that year. The House of Refuge, now named Rideaucrest, was renovated, and made more comfortable for those old people in our care, and the fire hazard was reduced substantially. The Garbage Department was equipped with modern and effective motorized equipment. The capacity of the Incinerator was extended at a cost of some $56,000. New snow removal equipment was bought and put into operation. A modern pumper was added to the Fire Department. Arrangements were made to obtain specifications and plans for a water filtration plant and also for a complete sewer survey of the City of Kingston. An extensive programme of street resurfacing was continued and the whole new area in the western section of the city had to be provided with physical services such as sewers, streets and sidewalks. Over and above the routine work of the council these represent sizable and substantial accomplishments.

There are five matters which I wish to draw to the attention of this council. The first is the necessary reorganization in the Works Department of the Corporation. The situation has not been satisfactory and it can be made satisfactory only by hard work and hard thinking on the part of this council. Despite a common view that money can buy anything, let me say emphatically that money in itself is not enough. There must be careful thinking in addition. In this connection, I wish to recommend to council that a committee consisting of Ald. Crawford (chairman), Ald. Casterton, Chown, Compton and Gibson be appointed to continue the work of the committee established in 1948. The second matter is that of the relationship of the fringe areas around the city to the corporation. Kingston has been growing and its environs are also growing. But only the city can provide the necessary physical and other services for the whole area. I believe it is now time for this council to consider the city's relationship with the surrounding area and to ascertain if such a measure as annexation is necessary and desirable. I believe the problem can be avoided no longer.

The third matter is that of the problem of sewage disposal. This matter has been discussed for ten years and some progress has been made. Our consulting engineers are now redrafting the sketch plans and looking for a suitable site for such a disposal plant. But I believe that the city should go further and, after a site becomes available, should actually proceed to have working plans, drawings and specifications prepared. This will cost a sizable sum of money, but once it is done these plans will be available if, as and when, public works should be required. And it is worth pointing out that the plans and drawings for such a plant cannot be completed by the engineers in less than a year. I believe therefore that it is a wise procedure for the Corporation to proceed with such plans and have them in readiness for the day when they will be needed.

The fourth matter is that of rearranging the physical layout of the City Hall. Further space must be provided for the various city departments. I believe the committee on Parks and Property should give careful consideration to this problem.

The final matter is that of the financial position of the city. The City of Kingston has had an enviable financial position in recent years, the result of hard work and economy which has often been derided in this chamber. But the city cannot continue to maintain its position and at the same time incur debt at the rate of the last few years. Further, the increased costs created by the higher price level must be faced. All of which is going to cause higher expenditure and higher taxes. The 1949 Budget is going to be a difficult one and at best will be a shock to our citizens.

Finally, I hope that the members of this council will carry on their discussions and reconcile their differences in a friendly and kindly spirit. We are all here to serve the citizens; we do not need to think alike but we can differ without rancour or distrust. I know that a co-operative spirit will facilitate our business and I feel confident that it will prevail throughout our term of office.

. . . .

The customary practice will be followed whereby the City Clerk-Comptroller will refer the relevant parts of the Inaugural address of His Worship the Mayor to the various committees for their consideration.

COMMUNICATIONS

From the City Clerk-Comptroller dated December 31st, 1948, as follows:

ADMINISTRATION AND LEGISLATION REPORT NO. 5

Ald. Crawford presented Report No. 5 from the Committee on Administration and Legislation as follows:

Kingston, January 7th, 1949.

To the Mayor and Members of City Council:

Gentlemen:—The committee on Administration and Legislation begs leave to report and recommend as follows:

1. That the extension of employment in the Fire Department of Fireman J. V. Doran for the period from January 1st, 1949, to June 30th, 1949, who, in accordance with s.s. 3 of Section 19 of By-law No. 4 of the Revised By-laws of the City of Kingston 1938 was eligible for retirement on December 31st, 1948, be confirmed.

2. WHEREAS the Dominion Government passed an Amendment to the Criminal Code which becomes effective October 1st, 1949, which is of concern to municipalities;

AND WHEREAS this Amendment has the effect of depriving the Magistrates of the absolute jurisdiction which they have had for many years in dealing with certain offences which are more particularly indicated in the present Section 773 of The Criminal Code;

AND WHEREAS the practical result of this Amendment is that persons accused of crimes which form perhaps 60% of all cases on the Magistrate's calendar can now elect to be tried by a Jury or by a County Court Judge, namely, cases such as common betting houses, common gaming houses, bawdy houses, theft under $25, false pretences involving $25 or less, wounding, assaults causing bodily harm, assaulting police officers and others;

AND WHEREAS it would seem that the effect of this Amendment will be to increase considerably the cost of the Administration of Justice in cities, separated towns and counties and indirectly for municipalities forming part of the county and it is believed that the Magistrates in the Province of Ontario are experienced and capable and, should they make any error, there is always a Court of Appeal to correct such errors;

BE IT THEREFORE RESOLVED by the Council of the Corporation of the City of Kingston that the Dominion Government be informed of the objections of this Council to the referred to Amendment;

AND BE IT FURTHER RESOLVED that this resolution be sent to the Ontario Municipal Association for its endorsation, to this city's representative in the Dominion Parliament and to the Minister of Justice, Canada.

3. That, as recommended by the City Clerk-Comptroller, a Burroughs bookkeeping machine to be used for such work as Ledger and Appropriation Accounting be purchased at a net price of $828.90 and that provision be made in the 1949 Budget for this expenditure.

4. That, in view of the expense and clerical work that would be involved in comparison with the number of persons that would be served, no action be taken on resolution passed by the City Council of Chatham on December 21st, 1948, to the effect that the Lieutenant Governor of Ontario in Council be petitioned to amend the Municipal Act so as to provide for holding an advance poll at municipal elections for all people who may be unavoidably absent from their own municipalities on the date of holding the vote.

5. That the Committee on Administration and Legislation bring in a report as to ways and means of implementing the vote of the people which was taken at the municipal election held on Monday, December 6th, 1948, on the question quoted hereunder:—

> ARE YOU IN FAVOUR OF THE ESTABLISHMENT OF A JUVENILE COURT IN THE CITY OF KINGSTON?

the results of which were:

6. That Ald. B. W. Trumpour and Ald. W. E. Weller be named as the city council's representatives on the directorate of the Kingston Chamber of Commerce for the year 1949.

7. That, as recommended by the City Solicitor, under date of December 28, 1948, no action be taken on the claim of E. E. Hickey, 180 Bagot Street, in the amount of $26.86 for damages said to have been sustained to his car while travelling on Concession Street between Alfred and Nelson Streets.

8. That, in accordance with the request made in Clause 2 of City Council report No. 70, 1948, that consideration be given to the advisability of holding an Old Home Week in the City of Kingston in 1949, it is recommended that no action be taken in relation thereto.

9. That, in accordance with Clause 6 of City Council report No. 87, 1948, a By-law be presented to the City Council to provide that no parking be allowed on the east side of Division Street from Brock to Union Streets for the period from December 1st to March 31st in each year, inclusive.

10. That, as recommended by the Committee on Social Welfare, N. J. Robinson, presently an assistant to the Welfare Officer, be designated Deputy Welfare Officer and that, effective April 1st, 1949, his present salary be increased from $1,900.00 to $2,100.00 per annum and subsequent thereto that he be granted annual increments of $100.00 per year, effective April 1st of each year, until a maximum of $2,600.00 per annum is reached.

11. That payment of two weeks' salary be made to H. O. Morris and W. D. Dick respectively, being in lieu of 1948 holidays which were not taken and that this expenditure be charged to the 1948 Budget appropriation—Administration and Legislation "Personal Services 'Salaries'."

12. That the following membership fee for 1949 be paid:

UNFINISHED BUSINESS

Ald. Tugwood asked if it would be possible for Council to make arrangements for delivery of mail to the residents of Joseph Street between Division and Patrick Streets. The Mayor stated that the matter would be taken up.

Ald. Wright asked what progress was being made on the acquisition and development of the marshlands. The Mayor replied that the matter was in the hands of the Committee on Finance and Accounts who were endeavouring to ascertain the most advantageous manner for the city to acquire the lands.

Ald. Wright asked what was being done about extension of the city limits. The Mayor replied that the committee on Finance and Accounts had this matter under consideration.

Ald. Wright asked if some committee was giving consideration to the proposed four-lane highway. The Mayor replied that from time to time the committee on Finance and Accounts and the Area Planning Board had made inquiries without receiving any definite information and that further representation would be made.

Ald. Wright referred to the question of sewage disposal and suggested that members read the report prepared by Messrs. Malcolm & Batty several years ago. He stated that in the neighbourhood of $30,000 had been spent on the preparation of reports on sewage disposal and suggested that a preliminary report be now prepared on the existing situation. The Mayor replied that the Public Utilities had agreed to have the consulting engineers bring their previous report up-to-date which will be forwarded to the city in due time. The Mayor also stated that the cost of previous reports will be tabled at the next regular meeting of the City Council.

Ald. Wright said that there had not yet been a report from the Mayor or the committee on Finance and Accounts on the total cost of the Housing Enterprises project and expressed the opinion that the cost of the project to the 31st of December, 1948, and the probable cost of completion should be made available. The Mayor pointed out that the anticipated costs are contained in the minutes of the city council and that more complete information would be provided.

Ald. McCullough referred to the icy condition of Princess Street from the early fall to the late spring and illustrated difficulties resulting therefrom and asked what was being done about it. Ald. Compton in reply pointed out that driving conditions this year were particularly difficult because of light snows falling on the icy surfaces. He stated that more sanding had been done this year than for a good many years past. Ald. Casterton said he knew that there was a man, as early as four oclock in the morning, sanding the intersections and a few yards beyond the intersections all the way down Princess Street.

Ald. Casterton expressed the hope that the flooding conditions at Patrick and John Streets would be rectified this year. Ald. Compton said that this was another instance indicating the urgency of obtaining a survey on the sewers in the city.

Ald. Tugwood asked that the construction of a sidewalk on the south side of Joseph Street, for which a By-law was passed last year, be given first consideration this year. Ald. Compton stated that it would have been done last fall if the weather had permitted but that it would definitely be completed this year.

Ald. Smith asked if a new Zoning By-law was under consideration. Ald. Crawford replied that his Committee had nothing under consideration at the present time but that some changes had been made in the latter part of the year on a recommendation from the City of Kingston Planning Board. Ald. Smith said he believed that a revision of the Zoning By-law merits attention and consideration should be given to rewriting the whole By-law from start to finish. Ald. Compton reported that the City Planning Board had under consideration four major changes for the Zoning By-law one of which pertaining to the erection of multiple family dwellings in certain zones had been considered by the Ontario Municipal Board; the others were (1) the opening up of new areas for industrial expansion; (2) consideration of the physical aspects of the By-law; (3) complete rewriting of the By-law.

Ald. Smith referred to a proposed combination of the engineering services of the Public Utilities and the Corporation and asked if action was being taken to give the City full jurisdiction over all engineering to be undertaken by the Utilities. Ald. Crawford, in reply, advised that the proposal was not to give the city full jurisdiction over all engineering to be undertaken by the Utilities but an endeavour was being made to work out problems common to both bodies on a basis satisfactory to both.

Ald. Trumpour referred to the "rolling back" of salaries to the members of the Fire Department in 1949 without taking into consideration the award of the Arbitration Board, and stated that he did not think the City could conscientiously take such action. Ald. Byron asked under what authority the Committee on Administration and Legislation did this and expressed the opinion that before such action was taken, the consent of Council should have been obtained. Ald. Crawford, in reply, stated that the consent of council had been obtained through a resolution passed by it as it referred to payment under the award of the Arbitration Board. He further advised that the Committee on Administration and Legislation has a request to study and discuss a new working agreement for 1949 and has arranged a meeting with the representatives of the Association of the Firemen for Thursday next (January 20th).

Ald. Schuett remarked that the residents in the west end of the city were concerned over street lighting and fire protection and asked that these matters be referred to the proper committee.

Ald. Shurtleff asked if the hole on Princess Street in front of the Grand Theatre could be permanently repaired and Ald. Compton said that this could be taken care of.

UNFINISHED BUSINESS

Ald. Tugwood thanked the Chairman of the Board of Works for the prompt action taken on petition presented to the City Council for lights on Joseph Street, and the City Clerk-Comptroller for his efforts in connection with a request for mail delivery on Joseph Street.

Ald. Wright reiterated his request for information on the costs for inspection and engineering fees as paid by the Public Utilities and the Corporation to Messrs. Gore & Storrie. The Mayor stated that the matter would be taken up with the Utilities.

Ald. Stone asked if snow in front of 141 Montreal Street and adjacent houses could be pushed to the west, instead of the east side of the Street, as due to the fact that the sidewalk in the area is lower than the pavement an undesirable condition was produced during thaws. Ald. Compton said the matter would be looked into.

Ald. Trumpour asked if some consideration could be given to having the snow in the area of West Street pushed into the Park rather than to the side of the Street. Ald. Compton said this could be done in some instances.

Ald. Smith expressed thanks for the copy of the Municipal Council and Councillor in Ontario, produced by the Institute of Local Government, Queen's University, which had been distributed to each alderman by the City Clerk-Comptroller.

Ald. Cunningham asked if any consideration had been given to supplying news to the press through the medium of press releases to safeguard the printing of misinformation. Ald. Reid pointed out that it was not practicable to record proceedings verbatim and that only selective reporting could be done.

Ald. Byron referred to newspaper report that snow removal had cost $1,000 more than last year and asked if information could be made available as to the quantity of snow removed. Ald. McCullough also referred to the figures which had appeared in the press on the cost of snow removal and stated that if these were not correct, they should be corrected. The City Clerk-Comptroller advised that he was unable to give the exact amount expended but pointed out that the two heaviest snowfalls had occurred on Christmas and New Year's which had necessitated removal on Sundays and holidays when it was necessary to pay double time, which might account for some abnormal increase

UNFINISHED BUSINESS

Wright asked for an explanation of that which is on page 48 of the booklet entitled "The Municipal Council and Councillor in Ontario" published by the Institute of Local Government and copies of which had been distributed to each alderman at a previous meeting of the Council. Ald. Crawford, in reply, said he did not know what was on page 48 nor would he want to give an interpretation of it offhand, but would be glad to study it.

Ald. Tugwood stated that complaints had been received from residents on Fraser Street on account of the dust nuisance from the quarry in the vicinity and asked that remedial action be taken and should not a fence be erected. Ald. Compton, in reply, pointed out that the quarry was there before the houses were erected and it was the reason the Planning Board prohibited the erection of housing north of Fraser Street. In compliance with a request from Ald. Tugwood, the Mayor referred the matter to the Committee on Parks and Property.

UNFINISHED BUSINESS

Ald. Tugwood thanked the Committee on Administration and Legislation for bringing in a recommendation on his suggestion to provide for the attendance of another member of the Committee on Social Welfare at the meetings of the Committee on Finance and Accounts, when the Chairman of the former committee is absent.

Ald. Black asked if the Committee on Traffic and Safety would give consideration to the placing of a one hour parking limit on the south side of Brock Street between Barrie and Division Street. He pointed out that there is a NO PARKING limit on the far side, that the busses turn from Division onto Brock and frequently all night and all day parking in the referred to area causes concern. The Mayor advised that the matter will be taken up by the Committee on Traffic and Safety.

Ald. Casterton advised that three service clubs—Lions, Kiwanis and Rotary—were assisting the Parks Committee with its work of equipping city playgrounds and wondered if some of the other service clubs would be interested in one or two of the other playgrounds which would help the Committee, which finds it is unable to accomplish all it would like with the money it has to spend.

Ald. Wright referred to By-law No. 659 which was passed by the City Council on February 14th, 1949, and pointed out that the heading of this By-law as it appeared on the agenda of that meeting read "to Provide for the borrowing of $36,000", whereas the By-law when finally passed made provision for borrowing only $25,000 and asked if the $36,000 was a typographical error. The City Clerk-Comptroller explained that the cost had been revised by the Public Utilities Commission from $36,000 to $25,000 and accordingly the By-law was amended on its third reading.

Ald. Reid referred to an account for the purchase of windbreakers for the Kingston Ponies Juvenile Baseball team in commemoration of their winning the Juvenile "A" Ontario Baseball Association Championship for 1948 and asked what arrangements were being made for presentation of the windbreakers. The Mayor, in reply, stated that the presentation would be taken care of by the Parks or Finance Committee and he would check on it.

Ald. Reid also asked what was being done about a survey of the street signs in the City made by the Junior Chamber of Commerce and sent forward by the Chamber to the City Council a year or so ago. Ald. Compton stated that it was the intention to appropriate a certain amount each year until all the streets were named. He stated that to date approximately $3,200 had been appropriated but he did not know at the moment how much of that had been expended.

Ald. Wright referred to the proposed purchase of replicas of the city council chairs and asked how Council intends to give them out. The Mayor replied that the thought of the Committee was that sufficient chairs would be bought to replace those presently in Council and that the latter would be put in Memorial Hall.

Ald. Tugwood asked what progress had been made on changing the name of Joseph Street to Rogers Avenue. The Mayor replied that he would answer the question at the next meeting of the Council.

Ald. Trumpour asked if it was intended to place street names on the back of STOP signs. The Mayor advised that the matter had been under consideration and Ald. Compton suggested that it could be referred to the Committee on Traffic and Safety.

Ald. Wright suggested the appointment of a special committee to look into the reclamation of the Marshlands. The Mayor advised that last year's Council had referred this matter to the Finance Committee, which has it under consideration at the moment.

UNFINISHED BUSINESS

Ald. Wright requested the Mayor to obtain from the Public Utilities Commission the cost of water and electric construction and installations in the Housing Enterprises district.

Ald. Trumpour asked that the city renew its efforts to acquire the lands owned by the Department of Justice in the vicinity of Johnson Street and the Palace Road and to provide for their annexation to the City of Kingston. Replying to the question raised by Ald. Reid as to what happened to the previous representation made by the City to acquire these lands he was informed by Ald. Trumpour that the Department, according to a letter on file, had stated that the lands were needed for Penitentiary purposes. Ald. Compton supported Ald. Trumpour in the matter of acquiring these lands which he stated, in his opinion, were most suitable for the erection of residences. Ald. Smith asked if the City should acquire these lands how they would be disposed of and was informed that it was a policy that could be determined at a later date. Referred to the Committee on Finance and Accounts.

Ald. McCullough asked if the City had any jurisdiction over the Public Utilities as it referred to their work operations on city streets. He made particular reference to the condition at the north-east corner of Barrie and Princess Streets where the Utilities Commission were constructing a transformer vault whereby pedestrians were obliged to use the roadway because of the obstructions caused by this work. The Mayor undertook to draw the attention of the Public Utilities Commission to this circumstance.

ADMINISTRATION AND LEGISLATION REPORT NO. 28

Council consented to the addition of Clauses 9 and 10 to the report of the Committee on Administration and Legislation which did not appear on the agenda.

Ald. Crawford presented Report No. 28 from the Committee on Administration and Legislation as follows:

Friday, March 18th, 1949.

To the Mayor and Members of City Council:

Gentlemen: The Committee on Administration and Legislation begs leave to report and recommend as follows:

1. (a) That the Council go on record as being opposed in principle to the conditions attached to the grants for municipal Fire Departments and Police Departments under the provisions of Bills No. 107 and No. 108 for the reasons that they will inevitably result in continuously increasing provincial interference in these functions of the municipality and their probable ultimate result will be increased costs to municipalities:

(b) That the above resolution be forwarded to Dr. H. A. Stewart, M.L.A. Kingston, and that he be requested to take whatever action is possible to implement the express wishes of the Council in this matter and that a copy of the resolution be forwarded to the Provincial Government and that His Worship the Mayor be authorized to make representations in the matter to any other medium which may be deemed useful.

2. That the tender of Simmons Men's Wear for 35 three-piece uniforms for members of the Fire Department, in accordance with specifications supplied by the Corporation at $2.80 each, f.o.b. Brock Street Fire Hall, sales tax included, be accepted, being the lowest tender received, as indicated in Administration and Legislation Minute No. 49-139, dated March 18th, 1949.

3. That the tender of Ed Walsh, Tailor, for 35 summer uniform caps for members of the Fire Department, in accordance with specifications supplied by the Corporation at $2.80 each, f.o.b. Brock Street Fire Hall, sales tax included, be accepted, being the lowest tender received, as indicated in Administration and Legislation Minute No. 49-139, dated March 18th, 1949.

4. That the tender of Fashion Craft Shops Ltd. for 18 white uniform shirts and 90 blue uniform shirts for members of the Fire Department, in accordance with specifications supplied by the Corporation at $3.95 and $4.50 each respectively, f.o.b. Brock Street Fire Hall, sales tax included, be accepted, being the lowest tender received for the quality required, as indicated in Administration and Legislation, Minute No. 49-139, dated March 18th, 1949.

5. That the tender of Simmons Men's Wear for 72 Black uniform ties for members of the Fire Department, in accord-

ance with specifications supplied by the Corporation at 85c each, f.o.b. Brock Street Fire Hall, sales tax included, be accepted, being the lowest tender received for the quality required, as indicated in Administration and Legislation, Minute No. 49-139, dated March 18th, 1949.

6. That, pursuant to the request of Local 498, Kingston Fire Fighters Association dated November 27th, 1948, your Committee has had four meetings with the Bargaining Committee of the Association and in accordance with the provisions of the Fire Departments Act has bargained in good faith with respect to the matters raised by the Bargaining Committee of the members of the Fire Department. The two parties have been able to agree on all points at issue except with respect to the matter of the rates of pay.

We have been advised by the Bargaining Committee of the Fire Fighters Association under date of March 12th that the Association is not prepared to accept the proposal of your Committee with respect to salaries and they have requested that if the Committee on Administration and Legislation is not prepared to accept the Association's proposal of $700 per year that the matter be submitted to City Council for its consideration. Under date of March 8th the Association requested that the Bargaining Committee of the Association be afforded the opportunity to make representations to Council when the matter is to be discussed by Council and that at the time the Bargaining Committee be permitted to be represented by counsel.

Your Committee is unable to recommend the acceptance of the request of the Bargaining Committee of the Association and is of the opinion that they cannot recommend any greater rate of pay than they have offered to recommend to the Council. The Committee would also recommend that any further discussion should be carried on between the Bargaining Committee of the Association and the Council's Committee, as instructed by the Council, rather than directly between the Bargaining Committee and the Council.

7. That, in accordance with Section 20, subsection 2(d) of By-law No. 4 of the Revised By-laws of the City of Kingston, 1938, N. J. Robinson, Assistant to the Welfare Officer, be permitted to participate in the Annuity Scheme of the Corporation as from April 1st, 1949.

8. That the purchase of 800 gallons of gasoline at 3420 cents per gallon and the adjustment of three voltage regulators at $4.50, from Frontenac Auto Electric Service be confirmed and the account, therefor, as certified by Fire Chief, in the total amount $278.10 authorized for payment, and charged to the appropriation Administration and Legislation "Mntce.—Auto Equipment".

9. That His Worship the Mayor be respectfully requested to issue a Proclamation with respect to the union of Newfoundland with the Dominion of Canada to take place on March 31st, 1949, and that His Worship be further requested to contact the school authorities in relation to observance in the schools of this event.

10. WHEREAS Subsection 1 of Section 39 of the Public Libraries Act as presently in effect gives municipal councils control over the estimates of public library boards to the extent that they exceed an amount equivalent to fifty cents per capita of the population of the municipality.

AND WHEREAS under the provisions of Bill No. 147, "An Act to Amend The Public Libraries Act" all control of such estimates is removed and councils are required to provide the amount estimated by the board without limit or restriction.

BE IT RESOLVED that this Council strongly protest to the Hon. Mr. Kennedy, Premier of Ontario, to the Hon. Mr. Porter, Minister of Education, against the removal of the degree of control presently resting with municipal councils on this matter and that Dr. H. A. Stewart, M.L.A., be asked to oppose the proposed removal of the existing financial control by municipal councils.

CITY OF KINGSTON

BUDGET FOR THE YEAR 1949

March 24th, 1949.

To the Mayor and Members of City Council:

Gentlemen:—The Finance Committee begs leave to present for the consideration of City Council the Budget for the year 1949.

As shown in the Comparative Schedule of Mill Rates given on Page 3, a total tax rate of 52.5 millsfor the ensuing year is recommended. This rate is comprised of a general rate of 49.75 mills, inclusive of the rate for school purposes, and a Garbage and Ash Collection rate of 2.75 mills.

The greatest care was exercised in analysing the appropriations requested by the various Committees of Council and every possible reduction was made consistent with the obligation of maintaining essential services of the municipality.

Your Committee was, however, confronted with an increased irreducible expenditure of approximately $160,000. This was made up of predetermined and unavoidable salary and wage increases to school teachers, firemen, policemen and other civic employees amounting to nearly $125,000 and increased debt charges in excess of $35,000. On this year's assessment for tax purposes the figure of $160,000 represents 6.49 mills. Notwithstanding this circumstance, due to the care exercised and the administrative economies performed, the recommended mill rate exceeds that of the previous year by only 5 mills. It must be remembered that during days of rising costs, municipal governments are not in a preferred or protected position in respect to either personal services or materials.

For your information, we are presenting herewith a table showing "Where the Tax Payer's Dollar Goes":—

WHERE THE TAX PAYER'S DOLLAR GOES

General Government	9.8 cents
Protection of Persons and Property	19.1 cents
Public Works—Roads, Highways and Streets	7.0 cents
Sanitation and Waste Removel	5.3 cents
Conservation of Health	2.6 cents
Public Welfare	9.0 cents
Education	33.3 cents
Recreation and Community Services	4.3 cents
Debt Charges	9.6 cents
	100.0 cents

Respectfully submitted,

Members of the Finance Committee.

UNFINISHED BUSINESS

Ald. McCullough asked if it were possible to have the waste paper and rubbish receptacles located on Princess Street repainted, repaired or replaced. Ald. Compton said that it would be done if there was sufficient money in the Budget.

Ald. Tugwood reported that he had received complaints from residents on Russell Street to the Outer Station concerning smoke nuisance from Warren Bituminous Paving Co. Limited asphalt plant and asked that some remedial action be taken in relation thereto.

Ald. Crawford asked if remedial action could be taken in connection with the condition of the road on Union Street immediately west of Kensington Avenue. Ald. Compton, in reply, stated it would be paved this year and until that was done it would be kept passable.

Ald. Wright expressed the opinion that no further sewers should be permitted to empty into the Joseph Street sewer until the whole sewerage system was reviewed. The Mayor, in reply, advised that preliminary steps have been made and are now being made in an entirely informal way and there is nothing at the moment for final action, but that there will be in due time.

Ald. Reid asked if the City receives any revenue from the services supplied by the City to "fringe" areas and the Mayor replied that the only service extended was the incineration of garbage which is paid for at so much per load or per ton.

Ald. Byron asked that the attention of the Engineer be called to the condition of the sidewalk on the east side of Lower Patrick Street between Stephen and Thomas Street, stating that it might cave in.

UNFINISHED BUSINESS

Ald. Byron stated that he had been informed that the roots of a tree in the vicinity of 307 Division Street were causing the backing up of a sewer there and asked is some remedial action might be taken. Ald. Compton stated that a sewer was the householder's responsibility but it was agreed he would check into the particular case referred to.

Ald. Compton said that he had received a request from the Kiwanis Club for 400 feet of snow fence to enclose the zoo which was being established in Lake Ontario Park by the Club. They also wished the use of the City's bulldozer on Saturday afternoon and he presumed if no objection was voiced he had the consent of Council to the loaning of the fence and bulldozer.

Ald. Compton stated that he thought as much as possible of Churchill Park should be devoted to a playground for children. Ald. Weller stated it had been pretty well established by the Parks Committee that the park be a horticultural project unless a petition was received asking that it be put to other use, but that if any change were to be made in the original plan, it should be determined promptly. Ald. Stone referred to the Dunnington-Grubb plans for beautifying the park which had been prepared some time ago and the cost of which, he stated, would be substantial, he agreed with Ald. Compton that playground space is badly needed there and in other parts of the City as well. Ald. Shurtleff advised that he understood the Chairman of the Parks Committee was in favour of a playground there.

Ald. Smith asked if the Public Utilities could not be requested to install services to all vacant land facing on streets in order to obviate the necessity of cutting up pavements. Ald. Compton, in reply, advised that this was always done where the area adjacent to the street to be paved was sub-divided.

UNFINISHED BUSINESS

Ald. Casterton stated that truckers who draw along Bagot, Rideau and Montreal Streets were overloading their trucks with the result that the materials were spilling off and dirtying the streets. He suggested that the Chief of Police should be instructed to warn all truckers against this practice.

Ald. Casterton also expressed his appreciation to the Members of Council for the flowers that had been sent to him during his recent illness.

Ald. Weller, speaking as one of the representatives of City Council on the Chamber of Commerce, stated that he was concerned with the relationship between the Chamber of Commerce and City Council. Some of the Members of the Senior Chamber were critical of City Council on the ground of lack of progress with annexation of the adjacent township area and reclamation of the marshland. Ald. Weller wondered whether the civic grant to the Senior Chamber of Commerce was fully justified under these conditions.

Ald. Wright stated that progress was being made with the proposal for the reclamation of the marshlands and that it was necessary to proceed cautiously with the extension of the boundaries of the City so that the goodwill of the Township would be maintained. Ald. Crawford suggested that the problems raised by Ald. Weller's remarks should be considered at the next meeting of the Finance Committee.

Ald. Byron proposed that the land adjoining Weston's Bakery Ltd., which was owned by the Canadian Pacific Railway, should be purchased by the City of Kingston and made available for factory sites. In reply Mayor Curtis said that the

Canadian Pacific Railway would sell these lots to private industry for just as reasonable a price as they would sell them to the City. The Mayor mentioned that Mowat Street was being extended to increase the accessibility of these lots. Ald. Trumpour said the City must make certain that adequate sewer and water services were installed for these industrial sites. Ald. Compton stated that the City had always installed sewers and other local improvements whenever a sufficiently signed petition was presented by the owners of the property.

Ald. Wright expressed a desire for speedy action on the sewage report being prepared by Gore & Stories.

Ald. Wright also mentioned that there had been undue delay in the printing of the Minutes of City Council. Mayor Curtis assured the Members of the Council that he was concerned at the delay in the printing of the Council Minutes and said that the matter was being investigated.

Ald. Byron suggested that a letter be sent from the City Council to the Board of Education suggesting that the MacDonald School Yard be opened for play purposes after school hours.

Ald. Tugwood suggested that the money derived from the rental of the Fair Grounds to Circuses be used for the construction of permanent toilets in the Fair Grounds. The Mayor advised that this suggestion would be given consideration.

CITY COUNCIL MEETING NO. 13

July 25th, 1949

A Special Meeting of the City Council was held this afternoon in the Council Chambers at two-fifteen o'clock, His Worship Mayor Curtis presiding.

Present:

Ald. Black, Byron, Casterton, Chown, Compton, Crawford, Cunningham, Earl, Foley, Gibson, McCullough, McKee, Reid, Schuett, Shurtleff, Smith, Tugwood, Weller and Wright.

In addition to those named in the foregoing, the following were in attendance:—

Commissioners Andre, Boyd and Harris; General Manager F. J. Parker of the Public Utilities Commission; Commissioner of Works V. R. Currie and Deputy City Engineer H. S. Dick.

SEWAGE DISPOSAL PLANT AND SEWERAGE SYSTEM OF THE CITY OF KINGSTON

This Special Meeting was called by the Mayor for the express purpose that Messrs. Storrie and MacLaren of the firm of Gore and Storrie, consulting engineers, Toronto, might present their views and opinions concerning the Sewage Disposal Plant and Sewerage System for the City of Kingston, directly to the members of City Council.

Messrs. Storrie and MacLaren, in their presentation, submitted sketch maps of the City of Kingston and adjacent areas, showing in outline the various water courses and elevations of lands in the City of Kingston and adjacent areas, and the proposed interceptor sewers.

In this presentation, Mr. Storrie made an oral review of the circumstances leading up to the report presented in 1939 pertaining to a Sewage Disposal Plant and Water Filtration Plant for the City of Kingston. This proposal had been based on an anticipated population of 30,000 by the year 1960. He illustrated the events that had taken place since that time and indicated that proposed plans should now be of a character as would serve a potential population of 60,000 and to include the Village of Portsmouth, the fringe areas of the City of Kingston and possibly Barriefield.

Mr. MacLaren followed Mr. Storrie and went into greater detail with respect to the sewer services required for the City of Kingston. He stressed the point that in considering sewer services for areas adjacent to the City of Kingston that consideration should only be given to the disposition of sanitary sewage from these areas.

Mr. MacLaren explained that it was proposed to have two interceptor sewers. One from the westerly boundary of the City along King Street to O'Kill Street where a Pumping Station would lift the sewage to about Barrie Street and thence by gravity to the Disposal Plant. The other interceptor sewer would be along the water front from the northerly limit of the City to Brock Street where it would be pumped to Ontario Street and thence by gravity to the Disposal Plant. These were proposed on the assumption that the Disposal Plant would be at the site of the present Water Works Pumping Station at the foot of West Street.

Mr. MacLaren, however, pointed out that before further progress could be made with respect to the sewerage system for the City of Kingston that a site for a Sewage Disposal Plant must first be determined. He stated that consideration had been given to the following sites:—

(1) The Marshlands near Belle Island.

(2) The present Water Works Pumping Station at the foot of West Street.

(3) East of the Great Cataraqui River near Deadman's Bay.

Mr. MacLaren expressed his opinion as to the relative values of the three sites as follows:—

(a) *Marshlands*—A Disposal Plant at this location would require full treatment as there is not sufficient flow in the Great Cataraqui River for dilution.

(b) *Water Works Pumping Station*—It was considered that the acreage of this site for a partial treatment plant would be of sufficient size but in the event of an extension being required, it would necessitate the reclaiming of land.

(c) *East of the Great Cataraqui River near Deadman's Bay*—To establish a Disposal Plant at this site would be the most costly of the three proposed sites because of the distance and type of construction required.

Of the three sites proposed, the Engineers expressed their opinion that the site east of the Great Cataraqui River was, notwithstanding the added cost, the most desirable because experience had shown that it was advisable that Sewage Disposal Plants should be as far from the City as is economically possible. In addition, only a primary system of treatment would be necessary because of the ample dilution provided by the flow down the St. Lawrence River. He further intimated that the establishment of a Disposal Plant at this site would be more economical from a maintenance point of view which would offset, to some extent, the capital cost. It was pointed out, however, that the location of a Disposal Plant at this site would require the consent and co-operation of the Dominion Government which now operates three Disposal Plants in the Barriefield Area.

The City Clerk-Comptroller read a letter dated July 22nd, 1949, from Dr. A. E. Berry, Director, Sanitary Engineering Division, Department of Health, Toronto, in which he expressed his regret at being unable to attend this Special Meeting of City Council. Dr. Berry advised that he was conversant with the proposals to be made by the firm of Gore and Storrie and advanced the view that in order to serve the needs of the Village of Portsmouth, the best arrangement would be for a joint project between the Village and the City to which the City would provide facilities for carrying the sewage from the Village through its trunk lines and treating it at the Sewage Treatment Plant to be built, and that such trunk sewer, when being constructed, should be large enough to take not only the sewage from the Village of Portsmouth but other sewage now being discharged in that area or which may be discharged in the future.

MOTIONS

Moved by Ald. Crawford. seconded by Ald. Cunningham (1) that the Mayor be requested to take up with the Dominion Government authorities the possibility of securing a site for a Disposal Plant to the east of the Cataraqui River and of arrangements for joint facilities to serve the Barriefield area and the City of Kingston and to report to this Council.

Referred by the Mayor to the Committee on Finance and Accounts.

UNFINISHED BUSINESS

Ald Black asked that the Committee on Traffic and Safety give consideration to either installing traffic lights or making a stop street at the intersection of Bagot, Clarence and Brock Streets.

Ald. Casterton asked that the Board of Works take into consideration more adequate lighting on Markland Street.

Ald. Cunningham asked when the Committee on Traffic and Safety was going to consider the report of the Traffic Sergeant on parking on Maitland Street.

Ald. Trumpour reminded the Committee on Traffic and Safety of a petition from the occupiers of various offices at 221 King Street requesting one hour parking on King Street between Earl and William.

Ald. Wright referred to the request of City Council that the Mayor take up with the Dominion Government authorities the possibility of securing a site for a Disposal Plant to the east of the Cataraqui River, etc., and asked if the Mayor had an interim report to present. The Mayor advised that he had nothing to report except that Mr. Storrie is negotiating and discussing the matter with the authorities in Ottawa.

Ald. Smith asked that the Committee on Parks and Property give consideration to a tree planting programme in the new areas of the City, for next spring.

Ald. Schuett said he understood Mack Street between Napier and Regent Street was to have been paved and asked when this would be done. Ald. Compton stated that he would check into this but he did not think that a sufficiently signed petition had been received.

Ald. Schuett asked what was being done about street lighting in the Housing Enterprises area and in the west end of the City. Ald. Compton, in reply, stated that the matter had been under consideration and a form of negotiation had been under way with the Public Utilities all summer.

Ald. Earl referred to the petition regarding the Women's Rest Room in the City Buildings and expressed the hope that something might be done to remedy the conditions which existed.

Ald. Wright asked what was being done about the surface on Concession Street from Victoria to Division. Ald. Compton, in reply, stated that the Commissioner of Works had presented a report on the type of pavement being laid by the Township which was very light and had recommended a heavier type for the section to be paved by the City, which could not be laid this fall. Ald. Compton stated that the City would do its best to maintain the street in the meantime and Ald. Wright suggested that it be scarified.

Ald. Smith advised that he noted from the press that the Bus Company were obtaining several new busses and suggested that, instead of opening up new routes, more frequent service be instituted on existing routes. The Mayor pointed out that any change in bus routes would have to come to Council for consideration.

Ald. Chown referred to the petition from occupiers of offices at 221 King Street which had been mentioned by Ald.

Trumpour. He stated that the people there were keeping most other cars away so that at the present time there was very little parking there. He also referred to the parking on Maitland Street and advised that instructions had been given to have the traffic lines removed but apparently the painters had not done this yet.

UNFINISHED BUSINESS

Ald. Casterton referred to the suggestion made at a recent Board of Works meeting whereby the city-owned land in the proximity of Montreal and Rideau Streets be used as a Dump and protested against such proposal. Ald. Compton, in reply, expressed the opinion that there was merit in the suggestion made but advised that this matter would receive full consideration before a decision was reached.

Ald. Gibson stated that he had been informed that a Building Permit had been issued for the erection of what appeared to be a used army hut on the piece of land at the corner of Westdale Avenue and Park Street and thought it was contrary to the provisions of both the Building and Zoning By-laws and requested that the matter be referred to the Board of Works for investigation. The Mayor agreed to the request and suggested that this matter be taken up with the City Solicitor to determine whether or not the City's By-laws take precedence over covenants pertaining to lands as he was advised that the covenant to the land in question provided that only a single family residence could be erected on said land.

Ald. Reid complimented the Committee on Parks and Property for the care and attention given to the baseball diamond in the Cricket Field and suggested that a slight change be made in the layout of the diamond. He thought it would be beneficial both to the players and spectators.

Ald. Shurtleff asked if a report could be given pertaining to the street lighting of Westdale Avenue. The Mayor advised that the request for these lights had been authoritatively passed by City Council and referred to the Public Utilities Commission. The Mayor then outlined a proposal whereby similar lighting to that on King Street from Barrie Street westerly be placed on Westdale Avenue and expressed the opinion that an improved street lighting would result at no particular additional cost.

UNFINISHED BUSINESS

Ald. Weller referred to Churchill Park and pointed out that the original plan was its development as a horticultural park but that some citizens apparently felt it should be made into a ball park. He thought it would be advisable to decide very soon what should be done with it and suggested that the aldermen in Rideau Ward determine the strength of the different groups. Ald. Compton said he was concerned with what was required for the children and that there was no ball park in that area of the City. Ald. Casterton pointed out that the motion originally passed by the City Council was to the effect that it would not be a ball park. He said that there were plans for a wading pool and children's playground and stated that it was not likely that a ball park there would be used by the children in the neighbourhood. Ald. Byron said that he was in favour of developing the park as originally planned by the City Council. Ald. Schuett advised that he agreed with Ald. Compton in that there were hundreds of children in the area and thought that it was about time that there was somewhere in the west end for mothers to take the children. Ald. Casterton pointed out that it would be cheaper to construct a baseball diamond than a horticultural park, but pointed out that there are already a number of places in the City for playing ball, but if Council wished to change the original motion, it could do so.

Ald. Compton advised that the Board of Works, from a meeting at which he was not present, had forwarded a recommendation to the Committee on Finance and Accounts that the city-owned land at the intersection of Rideau and Montreal Street be used for a dump, and that he had asked at the Finance meeting that this recommendation be held over. He stated that the present dump was almost filled and within the next few months will be levelled off and ready for some kind of development and it was therefore necessary to find a new location. He stated that he would like the Mayor to appoint a Committee to study and report back on the matter within the next two weeks at least. Ald. Casterton said that there were better localities than the Rideau and Montreal Street site with better access to the Marsh. Ald. Weller pointed out that there was a place north on Montreal Street, which would necessitate the crossing of only one railway track and suggested that a Committee be set up and action taken so that the requisite land can be procured for the development of the marshlands.

Ald. Earl advised that the portrait of Sir John A. Macdonald in Memorial Hall was being ruined by moisture because the walls of the City Hall needed pointing and suggested that the Committee on Parks and Property do something about it. Ald. Casterton said his Committee would look into it.

Ald. Black asked if the City Clerk-Comptroller could be instructed to prepare a list of the Special Committees set up since the beginning of the year and advise Council what they have done.

Ald. Black asked what was being done about the shopping centre that was to be set up in the west end of the City. The Mayor, in reply, informed the Council that only one proposal had been received which had been considered by the Committee on Finance and Accounts several times but no decision had yet been reached.

Ald. Byron referred to tenders being called for a car for the Probation Officer and stated he understood that the tenders closed on October 26th, 1949 and that delivery of the car was being asked for November 1st, 1949. He pointed out that this created an inconvenience for some dealers as they might not be able to deliver the car on such short notice.

Ald. Schuett asked if there was any report regarding the use of a second-hand army hut at the corner of Westdale and Park Street. The Mayor, in reply, stated that as far as he knew, no further progress had been made on the building and he believed that the Commissioner of Works in conjunction with the City Solicitor has the matter under consideration.

Ald. Wright requested that the Engineering Department prepare an overall plan for the development of the Marshlands, indicating the various proposals submitted by the aldermen.

Ald. Wright asked what disposition was being made of the portraits which had been hanging in Ontario Hall. Ald. McCullough stated, that as was indicated when the question was first raised, there was a place for each and every one of the portraits, but it was not considered advisable to hang them until the alterations in the City Hall were completed. Ald. Wright said he would like a report as to where they are being placed and expressed the opinion that the Ex-Mayors or their descendants should be asked if they would like the portraits returned to them.

Ald. Chown referred to the petition presented to the Council concerning the use of the land at the corner of Rideau and Montreal Streets and stated that when the matter was brought up at the Board of Works meeting they were given to understand that the land only collected rubbish at the present time and should be filled in and that a watchman would be on duty to see that no objectionable material was put in. Ald. Casterton said that the idea of filling the land in and selling it seemed foolish as it was worth as much now as it would be when filled in.

UNFINISHED BUSINESS

Ald. Cunningham asked that action taken at the meetings of the Committee on Finance and Accounts be not given to the press until after they had been received by the members of City Council. Ald. Black asked why copies of the minutes of the meetings of the Committee on Finance and Accounts could not be made available to all members of the City Council, as in the case with other Committees of the Council. The Mayor advised this would be given consideration. Ald. Gibson asked if it would not be preferable if no reports of Committee meeting appeared in the press until they had been presented to the Council. The Mayor, in reply, pointed out that a report appeared in the press of those meetings which the press attended and that it was the practice to have resolutions going to Council sent forward to the aldermen, before distribution to anyone else.

Ald. Smith asked for clarification of the City's policy regarding the establishment of a shopping centre in the west end of the City. The Mayor advised that he believed that it was not the intention to sell the piece of land reserved for a shopping centre in individual lots but that one development would be made in the area; he mentioned that the Finance Committee had one proposal before it but that the Committee had not yet given it adequate consideration.

Ald. Gibson referred to the property at the corner of Westdale Avenue and Park Street and said that a lot of residents were wondering what was being done about the proposed conversion of an army hut into a dwelling. He referred to Sub-section 4 of By-law No. 15 and asked if all the requirements therein had been fulfilled, as well as those contained in the Zoning By-law. Mr. Currie, Commissioner of Works, said he did not feel the Building Inspector would have issued the permit unless all requirements under the City's By-laws had been complied with. Alds. Chown and Wright reported that the matter had been discussed at a meeting of the Board of Works and the consensus was that the building, when completely reconverted would be satisfactory.

Ald. Black asked if the Chairman of the Board of Works could have something done about the ash trucks, when fully loaded, driving fast along Bagot Street showering ashes along the street. The Mayor said that the matter would be taken under advisement.

DEATH OF EX-ALD. HUGHSON

His Worship the Mayor advised the members of Council that the funeral of Ex-Ald. Hughson would be held on November 8th, 1949, and that Ald. McKee would represent him as he was to be out of town, but if other members of Council could attend it would be appreciated.

UNFINISHED BUSINESS

Ald. Casterton reiterated his request for improved street lighting in the north end of the City. The Mayor, in reply, advised that the Public Utilities were presently in the process of receiving the required materials.

Ald. Tugwood remarked that he would like to see one of the contractors who are members of City Council appointed as a Council representative to the Building Committee of the Kingston Community Memorial Health and Recreation Centre. The Mayor stated that this would be taken under advisement but it was pointed out that Ald. Schuett was already a member of the Committee.

Ald. Schuett extended to the Board of Works appreciation of the residents in the west end of the city for the very effective street lighting recently installed in that section.

HILLEL FOUNDATION — QUEEN'S UNIVERSITY

The Mayor reminded the members of Council of the invitation extended to them to visit the Hillel Foundation at Queen's University at 26 Barrie Street on the 22nd November at 8.30 p.m.

THE LATE W. D. DICK

The Mayor, on behalf of the City Council expressed the deep regret of the members on the passing of Mr. W. D. Dick, who has been an employee of the Corporation of the City of Kingston for the past nearly 33 years. Mr. Dick was initially employed on May 1st, 1917, in the capacity of Assessor, was promoted to Assessment Commissioner on May 1st, 1937, and since May 1st, 1948, has been in the capacity of a full-time Consultant to our Assessment Department. During Mr. Dick's entire service with the City he has been one of the most faithful and conscientious of City officials; indeed before his illness in September of this year, he had the remarkable record of having only been off for 11½ days for reasons of ill health.

Mr. Dick's association with both elected and appointed officials had always been most pleasant and his loss will be most keenly felt by them. Indeed he will be missed by the citizens in general for much of his work was of a character which made a direct contact with them.

The sympathy of the members of Council is extended to Mrs. Dick and her daughter and son in their bereavement.

The Mayor respectfully requested that as many members of Council as possible attend the funeral of Mr. Dick to be held on Wednesday, November 23rd, 1949, at 2.30 p.m.

UNFINISHED BUSINESS

Ald. Cunningham referred to the statement made by the Hon. D. C. Abbott in the House of Commons to the effect that grants would be made to municipalities in lieu of taxes on Federal property and expressed the opinion that the matter should be gone into thoroughly by an appropriate committee of Council and a report submitted to the Council. The Mayor, in reply, reported that the Canadian Federation of Mayors and Municipalities had agreed to make representations to the Dominion Government for a clarificaton of Mr. Abbott's statement and expressed the hope that when this was forthcoming the City would be in a better position to assess the possibility of its coming under the ruling.

Ald. Casterton asked that the bus stop at Montreal and John Street be reinstated, and he also thought that the Corporation should be advised when any change is made in bus stops or routes by the Bus Company.

Ald. Earl said she had received a great many phone calls about the dog pound, and would be glad to be assured that the sub-committee would study the matter in the near future. The Mayor stated that it would be given immediate consideration, but it would be the New Year before anythng effective could be done because there are no financial resources to do anything. Indeed it will be necessary to raise $6,000 to $8,000 for Social Welfare before the end of the year and this was difficult enough. Ald. Smith referred to the representative of the Humane Society present at the meeting and suggested that the sub-committee might get in touch with the Society which could perhaps be of assistance in the matter.

Ald. Crawford asked if the meeting on December 19th would be the last meeting of this year, and the Mayor replied that he believed it would.

Ald. Byron asked if further consideration had been given to the matter of a retirement plan for hourly paid civic employees and Ald. Crawford stated the matter had not been finally decided and could not be until the Budget was brought down for 1950.

Ald. Casterton referred to the offer of the E. L. Ruddy Co. to erect a rink on City property at the corner of Montreal and Rideau Streets, providing they are granted permission to erect a number of signs at this location and asked if it had been given consideration by the Board of Works at its meeting tonight as arranged. Ald. Compton replied that it had but the Board did not feel that it could deal with the matter on such short notice, but would give it further consideration at its next regular meeting to be held on Monday, December 12th, 1949.

UNFINISHED BUSINESS

Ald. Casterton, asked if, in view of the fact that the assessment notices had not been delivered until December 13th or 14th, the time for entering appeals should be extended. The Mayor stated he did not know offhand what the requirements were but would take the matter under advisement.

Ald. Trumpour asked if there was any report from the dog pound committee. The Mayor reported that the subcommittee had presented a report to the Committee on Finance and Accounts but the latter had not had sufficient time to come to any conclusion on it.

Ald. Wright asked the Mayor for a resume of any items under consideration that were of major importance, such as the report from Gore and Storrie on sewage disposal, the relationship of the Corporation with the adjoining townships, etc. The Mayor, in reply, said that he expected the report from Gore and Storrie would be received in the next month. He also mentioned that the Finance Committee had been in touch with the Community Centre Committees and was in the process of working out propositions which it was thought would be reasonable and acceptable to Council.

Ald. Crawford remarked that it was the usual custom at this time of the year to say nice things about one another and about the Mayor but in view of the fact that there would be no change in the personnel of the Council for the coming year, that could be foregone, but he would like to go on record as commending the work and efficiency of the staff of the City Hall, as a whole. He also expressed appreciation of the services of the Commissioner of Works of whom he had heard many favourable comments.

Ald. Casterton referred to those aldermen who had just completed their first term in City Council and congratulated them on the manner in which they had carried out their duties. He also complimented the Mayor for the conduct of the City Council and the meetings of the Committee on Finance and Accounts.
